Above is the welcome they were given by the team who visited the team's community in London where they were made very welcome and were given a tour of the training ground with local team.

Partnership between London & Rabat established by Dalgarno

A local Moroccan gymnasium also started training in August after having been approached by the Ashyil Burcelaw team which resulted in a partnership between the two teams as well as the local football club and the local football team in one of the country's interior towns. This will be the first time the two teams will play against each other.

The team will reach out to this traditionally underprivileged rural area to provide education and activity for the young people of the area who do not have local facilities for football.

A local Moroccan football club, Mohammed Ben Hmim, also chose the Ashyil Burcelaw team as their partner in the Ashyil Burcelaw team's activities.

Mohammed Ben Hmim is a local football club in the Ashyil Burcelaw team's community. They are currently looking for a new coach and are looking for help to improve their facilities and equipment.

A presentation was given to the community members about the Ashyil Burcelaw team's activities and how it will benefit the local economy.
